Agnieszka Łukaszewska

Project Manager

Short description (Short CV) of the participant

Project manager at Marshal Office of Lower Silesia.

Short description (Short CV) of the institution

The Marshal Office of Lower Silesia Voivodeship, as a public institution, is responsible inter alia for the health policy creation for their citizens. As in the whole of Europe, the elderly are a growing part of our population. Therefore, the Health Policy Department in the framework

of health promotion, focuses on programs dedicated to pursuing a number of elderly people. As part of the activation of local communities for the development of environmental services for the elderly, we announced a tender for an open competitions for the public implementation for: activating groups; health promotion, and; protection efforts, including development of community services for the elderly. On the initiative of members of the Australian Council for Senior Citizens, appointed by the Authority, once a year (every year in another city / municipality) the Forum of Australian Universities of the Third Age is held. In total there are presented examples of good practice on issues such as cooperation between organizations, mobilization of resources from the EU, etc. The activities of the Department of Health Policy and Senior Citizens Council of Lower Silesia are presented on a national and international conferences and public debates.
