## First Polish-German Biochemical Societies Joint Meeting

11th – 14th September 2012, Poznań (Poland)

The Meeting will be held as well the 47th Congress of the Polish Biochemical Society. The leading theme of the Meeting “Biochemistry for Health and Environment” will cover important and diverse aspects of human, animal and plant functioning at the level of gene expression, metabolism, cell motility and their sensitivity to intracellular and environmental signals under conditions of health and pathology.

The lectures will be given by excellent and outstanding speakers from Poland and Germany. The Meeting will bring together leading biochemists, medicinal chemists, pharmacologists, biotechnologists, molecular and cell biologists to discuss and present the latest important developments. The Meeting will also provide a forum for in-depth assessment of the challenges involved in the dynamic and fast moving fields of drug discovery and therapy.

Further details can be found at: <http://www.biochemistry-poznan2012.pl/>

# CleanMed Europe Conference

26th – 28th September 2012, Malmö (Sweden)

CleanMed is the world's leading conference focusing on sustainable health care. During 26-28 September 2012 the European version of the conference will be held for the third time in its history, with 400-600 expected participants. The conference will be held in Malmö, the most continental city of Sweden.

CleanMed Europe 2012 will provide you with a holistic view on the impact of healthcare on society – at both global and local level. The organisers look forward to offer a wide spectrum of current topics presented by leading international experts and organisations.

Eco4Life project partners will participate in this conference and will also have an exhibition booth there to present their Baltic Green Healthcare network.

Further details can be found at: [www.cleanmedeurope.org](http://www.cleanmedeurope.org)

## Eco4Life workshops and Training Modules

Szczecin (Poland)

Since the beginning of the year Partner 2 of the Eco4Life project - Pomeranian Medical University in Szczecin - organized 3 public workshops focused on: patent protection, corporate social responsibility, and the environmental management. The last workshop was the introduction to more elaborate training called - training modules.

It will take place on September in Szczecin on the topic: "ISO 14001 as the first step to better environmental practices in the healthcare sector" and addresses stakeholders from the Baltic Green Healthcare Network.

Further details about upcoming workshops and detailed program of the training module will be available soon at: [www.eco4life.info](http://www.eco4life.info)
